

3M[™] Versaflo[™] Powered Air Turbo TR-800

Technical Data Sheet

Description

The 3M[™] Versaflo[™] Powered Air Turbo TR-800 is an IECEx certified belt-mounted air purifying device that can be used in certain potentially explosive atmospheres. When combined with a 3M approved headtop, it forms a power-assisted system for respiratory protection against particles, nuisance odours (where applicable) and gases and vapours. The TR-800 Powered Air Turbo can be used with the 3M[™] Versaflo[™] S-Series and M-Series headtops.

Features

- Approved to Zone O requirements so may be suitable for areas where potentially explosive atmospheres are expected and permanent in normal operations (see technical specifications for more information).
- Three user selectable flow rates
- Controlled airflow delivers steady flow as battery discharges or filter loads with particulates
- Display shows battery charge status and particulate loading status during use
- No user calibration of the turbo is required
- Electronic audible and visual alarm in case of low battery and/or low air flow
- Simple, intuitive, easy to use two-button operation
- Four filter options available:
 - P3
 - P3 plus nuisance level* organic vapours and acid gas which also offers protection against hydrogen fluoride up to 10 x Workplace Exposure Standard
 - A1P3
 - A1B1E1HgP3
- Lithium ion battery with LED to indicate charge status
- Two belt options:
 - Easy-clean belt
 - High durability belt
- Suitable for shower decontamination (IP54) when using filter cover and temporary submersion (IP67) when fitted with cleaning plugs.

* Nuisance level refers to concentrations below the Occupational Exposure Limit

Standards

When used as part of an approved 3M Respiratory system, the TR-800 Powered Air Turbo has been shown to meet the performance requirements of AS/NZS 1716:2012

IECEx

EN 60079-0:2011 – Explosive atmospheres, Equipment – General Requirements EN 60079-11:2011 – Explosive atmospheres, Equipment protection by intrinsic safety "i" EMC

EMC

EN 61000-6-4:2007+A1:2011 - Generic standards. Emission standard for industrial environments EN 61000-6-2:2005 Generic standards. Immunity standard for industrial environments

Ingress protection

IEC 60529:1989+A1:1999+A2:2013 Degrees of protection provided by enclosures (IP Code)

RoHS

EN 50581:2012 Technical documentation for assessment of electrical/electronic products for RoHS

Limitation

The 3M[™] Versaflo[™] Powered Air Turbo TR-800 should not be used in the following conditions:

- In atmospheres containing less than 19.5% oxygen
- Confined spaces (lack of ventilation)
- When the risk is considered to be immediately dangerous for life or health (IDLH)
- Where the contaminant concentration is above the Workplace Exposure Standard defined for the headtop used (see relevant user instructions for the headtop)

Specifications

3M[™] Versaflo[™] Powered Air Turbo

IECEx	Non-mining gas atmospheres (Group II)		
	EN 60079-11 Ex ia IIB T4 Ga		
	ia – intrinsic safety for Equipment protection level Ga		
	IIB – Gas apparatus group		
	T4 – Max. surface temperature 135°C (-20°C ≤ Ta⁺ ≤ 55°C)		
	Non-mining dust atmospheres (Group III)		
	EN 60079-11 Ex ia IIIC 135°C Da		
	ia – intrinsic safety for Equipment protection level Da		
	IIIC – Dust apparatus group		
	135 °C – Max surface temperature (-20°C ≤ Ta⁺ ≤ 55°C)		
Outlet flow characteristics	Manufacturer's Minimum Design Flow (MMDF) 170 I/min		
	 Nominal Standard flow = 185 lpm 		
	• Nominal Mid Flow = 205 lpm		
	• Nominal High Flow = 225 lpm		
Minimum battery duration (hours)**	Standard flow - 5.5 – 7.5 Medium flow - 4 – 6.5 High flow - 2*** – 5.5		
Battery charge time	Less than 3.5 hours		
IP rating	IP 54 (5 = dust protected, 4 = sprayed water from all directions) when using filter cover)		
	IP67 when fitted with cleaning plugs (6 = dust tight, 7 = temporary submersion to a depth of 1m).		
Storage conditions	-30°C to +50°C < 90%RH		
Operating temperature	-5°C to +55°C Note: This is the operating tem- perature range for the 3M [™] Versa- flo [™] Powered Air Turbo TR-802E when used as part of an AS/NZS 1716 compliant respirator.		

Shelf life****	3M [™] Versaflo [™] Powered Air Turbo TR-800 and Filters = 5 years	
	Battery = 6 months (if unused be- yond this period, batteries may not provide approximately 750 charge/ discharge cycle equivalents during the first year of use while maintain- ing 80% of their original capacity)	
Materials	Turbo body = Polycarbonate / Polydimethylsiloxane blend	
	Filter cover = Polyamide	
	Battery casing = Polycarbonate / Polydimethylsiloxane blend	
Weight (including battery but excluding belt and filters)	Turbo = 1360g	

 $^{\rm +}{\rm Ta}$ defines the ambient temperature range within which the Temperature (T) class is defined, according to EN-60079-11

** Estimated system duration based on testing with a new battery and a new, clean filter at 20°C. Actual system duration may be extended or shortened depending on system configuration and environment.

*** To conserve battery power in high airflow setting, in some headtop/filter configurations, the Powered Air Turbo may automatically step down at this time to the medium airflow setting. If this occurs, a 4hr duration will be achieved. The step down feature can be over-ridden by the user by pressing the flow control button to move the airflow back to the high flow. The low battery alarm and low flow alarm will always operate as described in this user instruction. When either alarm sounds, users must immediately exit the contaminated area.

**** The shelf life as defined above remains an indicative and maximum data, subject to many external and non controllable factors. It may never be interpreted as a warranty.

Ordering Information

The TR-800 Powered Air Turbo is available to buy as:

3M Code	Model #	Description
70071732666	TR-819A	TR-819A IS PAPR Starter Kit including Turbo Unit, BT-30 hose, battery and TR-641A charger, TR-971 Air flow indicator and pre-filter
70071730900	TR-802E	PAPR Motor/Blower 1/CS
70071697117	TR-830	Battery, intrinsically safe, 1/CS (includes TR-838 battery attachment tool)
70071697133	TR-851	Filter latch assembly
70071697125	TR-838	Battery attachment tool
